FREE STYLIZED BAKERY SAMPLER - UPDRAFT ART

=====

Hey, thanks for downloading this kit!

I'm a solo technical artist, and my goal with UpDraft Art is to build clean, low-poly, highly optimized stylized assets that you can drop directly into your game without having to fight with materials or colliders.

This free sampler is designed to get your prototype up and running instantly.

--- WHAT'S INCLUDED ---

1. Work Table with Bottom Shelf
2. Bread Loaf
3. Rolling Pin
4. Flour Sack

--- HOW TO USE ---

These are standard Universal Render Pipeline (URP) assets.

Simply open the 'Prefabs' folder and drag the items directly into your scene. Colliders and materials are already configured.

--- THE ONE FAVOR I ASK ---

Asset store algorithms are brutal for solo devs. If these props saved you a few hours of modeling today, please consider taking 30 seconds to drop a 5-star rating on the Asset Store page.

I don't have a marketing budget; those ratings are the lifeblood that keeps me making more art.

--- GET THE FULL BAKERY ---

Need the rest of the bakery pack? This free kit is perfectly scaled to match the full Stylized Bakery Props Pack.

The full \$9.99 kit includes 20+ pieces, including the brick oven, modular countertop set, basket, bread rack, scale, an assortment of baked goods, and more.
